PROFILE SUMMARY

I'm a Web Developer passionate about building seamless digital experiences! During my internship at Shubhkey Infotech LLP, I developed a responsive Stock Market Dashboard using HTML, CSS, JavaScript, Python, Django, and SQLite3, featuring live data, user authentication, and API integration. At Hackton 2024, I also built a robust Real Estate Management System with React, Python, and MySQL. With over 1000+ hours of bootcamp training, I bring strong skills in frontend and backend development, and I'm always eager to solve real-world problems with smart, scalable code.

EDUCATION

Diploma in Information Technology   Sep 2023 – Present
B & B Institute of Technology

Pursuing a comprehensive three-year diploma with a focus on core IT concepts including programming, web development, database management, networking, and software engineering.
Gained hands-on experience with technologies such as Python, C/C++, HTML, CSS, JavaScript, and SQL.
Actively involved in practical labs and projects emphasizing problem-solving, coding, and system design.
Developing a strong foundation in both theoretical and applied aspects of computer science and information systems.

PROFESSIONAL EXPERIENCE

Shubhkey Infotech LLP – Web Developer   June 2024 – July 2024

- 4-week full-stack web development internship using HTML, CSS, JavaScript, Python, Django, JSON, and SQLite3.
- Developed a Stock Market Dashboard with real-time stock data, user authentication, and news integration via APIs.
- Implemented secure login/signup, client-side validation, and data visualizations with Chart.js..
- Built backend logic with Django MVT architecture, CRUD operations, and SQLite3 data management.
- Optimized performance with API caching and rate-limiting strategies.
- Conducted testing (unit, integration, and user acceptance).
- Collaborated using Git, participated in daily stand-ups, documentation, and feedback cycles.

TECHNICAL SKILLS

Django | PHP | Microsoft Office | Git | C++ | CSS | Java | Python | SQL | API | JSON | C | SQLite | HTML | JavaScript
